

Region 28 Discussion Notes

Bureau, Henry, Stark

General Comments

- I see a lack of diversity of children in the community.
- Total number of slots available and the total number of children-the need for more Early Childhood Education and Care (ECEC) options for families.
- There are a lot of smaller towns in this region that would require more transportation options to be able to service some of those children.
- Families from smaller towns need more support.
- Transportation resources.
- This area is very rural so the ability to access appropriate services can be challenging.

Strengths/Assets

- None shared.

Needs/Challenges

- Lack of diversity.
